RE: Sawnee EMC's PURPA Activities "Smart Grid Investments" Standard

Greetings to all SEMC members from the staff of your cooperative.

You are visiting this section of our web site to learn more about the efforts that we have undertaken to comply with the new requirements outlined in the Energy Independence and Security Act of 2007 ("Act") relative to the review of one (1) of the four (4) new Public Utility Regulatory Policy Act standards, more commonly known as "PURPA" relating to "Smart Grid Investments".

We have created this web site to aid you in your review of the various activities that have occurred, as well as those to come. It is your "one stop" source for all of Sawnee's efforts concerning our PURPA review relating to the consideration of the "Smart Grid Investments" standard. I would encourage you to review this site often and let us know what questions you have.

Participation is easy. So that you can get the information you need or want, and for those members who wish to become "Formal Parties", we have created a secure site to participate at the highest level. If you don't want to get that involved but do want your voice heard, consider becoming a "limited appearance" participant. To learn more about how to get involved, download our PURPA Manual or contact SEMC's PURPA officer, Mr. Ryan Satterfield, Vice President of Office Services. His contact information as well as information about our office location can be found in the "Contact Us" section of this site.

We have dedicated staff and resources to make your participation as simple as possible. Our goal is to make your involvement easy, efficient, and allow your voice to be heard on these complex and far reaching issues. Please let us know how we can serve you better during this evaluation. Best wishes.

Michael A. Goodroe
President and CEO, Sawnee EMC
